Profile & Objective

I am a third-year student in the University of Hertfordshire studying 3D Animation and Modeling.

I am looking to make good use of my summer break with a job that can help me to develop my skills and gain a better understanding of the industry.

I have worked with 2 mini-enterprises as artist and designer. I have created works on request for portraits, paintings, birth announcements, logos for companies and photo enhancements. I have learnt to meet deadlines and understand the effort and time required to achieve a great result.
